DETAILED ACTION

Response to Arguments

1. Applicant's arguments filed 3/11/2005 have been fully considered and are persuasive.

Reasons for Allowance

2. The following is an examiner's statement of reasons for allowance: the prior art could not alone or in combination anticipate or make obvious a bag manufacturing and packaging apparatus in which a bag manufacturing unit manufactures bags filled with articles, a feed roller feeds out a strip with a bend imparted in a transverse cross section of the strip – the bend produced by a pressing roller/drive roller, one being concave and the other convex to impart said bend - and a mounting unit that receives the filled bag and the strip and mounts the bag to the strip.

The most pertinent prior art, PETREA, discloses a bag manufacturing and packaging apparatus but does not disclose a feed roller that feeds out a strip with a bend imparted in a transverse cross section of the strip – the bend produced by a pressing roller/drive roller, one being concave and the other convex to impart said bend - and a mounting unit that receives the filled bag and the strip and mounts the bag to the strip

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue
